8:45am There was a pre-caucus meeting with Capt. Honn and several members of the capitol safety team from CSP about building safety: plans, drills, communications, panic buttons, etc. This meant the caucus meeting didn't start until 8:45am.

8:48am Maggie went over what the caucus priority bills are and which bills from last week have made the agenda (dating app protections did). And asked what the sponsors want as far as help from the caucus in support that bill or others on the priority list.

8:55am Discussed the potential for a meeting with the Governor to present the Women's Caucus priorities to him and his team.

9:00am Adjourned
